NEW PLANTS
 FOR
2005

If you're addicted to plants, you'll love this list. New plants from all over the world will be making their debut this spring at a garden center or mail-order nursery near you. With all the new

variations in plants available this year, it will be hard to whittle down your wish list by spring. There are even some that will be hard to get because they're so new. So get started early!

Plant Name	Height/ Width	Cold/Heat Zones	Bloom Time	Introducer	Source	Comments
PERENNIALS						
Agastache 'Ava' <i>Agastache</i> hybrid	4 to 5 ft./24 in.	5-10/10-1	Midsummer to autumn	Santa Fe Greenhouses	High Country Gardens www.highcountrygardens.com 800-925-9387	Huge spikes of deep rose-pink flowers; raspberry-red calyxes keep their color until the first hard frost; makes an excellent dried arrangement; fertilize in midfall with balanced granular fertilizer; cut back the sweetly scented foliage in midspring; full sun; well-drained soil
Beardtongue red sage <i>Salvia penstemonoides</i>	24 to 30 in./24 in.	6-10/10-1	Summer	Santa Fe Greenhouses	High Country Gardens www.highcountrygardens.com 800-925-9387	Thought to be extinct, this wildflower was rediscovered in Texas in the 1990s; dark rose-red flowers on tall spikes; protect from wind; full sun; moisture-retaining soil
Bellflower 'Heavenly Blue' <i>Campanula rapunculosa</i>	36 in./18 in.	4-9/9-1	Mid- to late summer	Sakata Seed	Local garden centers	Biennial with tiny star-shaped light blue flowers; long lasting as cut flowers, use in place of baby's breath in arrangements; full sun to part shade; fertile, well-drained soil
Berkheya 'Silver Spikes' <i>Berkheya purpurea</i>	24 in./18 in.	6-9 /9-1	Summer	Darwin Plants	Local garden centers	Interesting thistlelike foliage; good architectural plant for a border or hedge; 3-in. daisylike white flowers with purple centers; full sun; moist, well-drained soil
Campanula 'Powder Puff' <i>Campanula punctata</i>	24 in./12 in.	5-9/9-1	Late spring through summer	Terra Nova	Go to www.terravanurseries.com for a retail source	Very large, double white flowers on sturdy stems; great hummingbird plant and cut flower; full sun to part shade; moist, well-drained soil
Coral bells 'Color Dream' <i>Heuchera</i> hybrid	12 in./14 in.	4-8/8-1	Late spring to summer	Darwin Plants	Local garden centers	Purple foliage with a silver sheen and stunning red edges in midsummer; excellent for the front of a border, rock garden or in a container; full sun to part shade; well-drained, slightly alkaline soil
Daylily 'Parkdale Violet Parade' <i>Hemerocallis</i> hybrid	16 in./24 in.	3-10/10-1	Midsummer	B&D Lilies	Snow Creek Daylily Gardens www.bdlilies.com 360-765-4342	Velvet-textured 4 in. violet flowers with a hint of silver at the edges; big yellow eye and light lavender stripe; fade-resistant blooms; great frost-tolerance; full sun; well-drained soil
Daylily 'Parkdale Champagne Bubbles' <i>Hemerocallis</i> hybrid	28 in./30 in.	3-10/10-1	Mid- to late summer	B&D Lilies	Snow Creek Daylily Gardens www.bdlilies.com 360-765-4342	5 in. fragrant champagne-buff colored flowers get whiter in hot climates; makes large clumps in a short time; full sun; well-drained soil
East Indies aster 'Berggarten' <i>Aster tongolensis</i>	12 in./14 in.	4-8/9-2	Summer	Darwin Plants	Local garden centers	Lavender-blue flowers with a striking orange center; makes a great cut flower; full sun to part shade; fertile, well-drained, slightly alkaline soil
Foxglove 'Camelot' <i>Digitalis</i> hybrid	4 ft./30 in.	5-9/12-1	Summer	Goldsmith Seeds/ The Flower Fields	Local garden centers. Go to www.theflowerfields.com for a garden center near you	New series in cream, lavender, rose and white; flowers the first year from seed with a heavy second-year bloom
Garden mums My Favorite™ series <i>Chrysanthemum</i> hybrids star white, purple, lavender, orange and amber	14 in./18 in.	9-3/9-1	Late summer through autumn	Anthony Tesselaar	Local garden centers. Go to www.tesselaar.com for a garden center near you	This group is more compact than previous mums in the series; over 5000 flowers per season on a mature plant; fertilize monthly with balanced liquid fertilizer; true perennials, you'll want to plant these in the landscape, not in containers; evergreen in the South; full sun, filtered in dry heat areas such as the desert Southwest; well-drained soil
Goldenrod 'Goldrush' <i>Solidago cutleri</i>	12 in./30 in.	4-9/9-5	Late summer to autumn	Blooms of Bressingham	Local garden centers. Go to www.bobna.com for a garden center near you	Dense spikes of yellow-gold flowers almost completely cover the foliage; good air movement prevents rust and other fungi; don't overfeed — too much fertilizer will promote foliage, not flowers; drought-tolerant once established; full sun; well-drained soil
